

ARAM ABDULLAH

Manchester, England M3 3GZ
07563245998 - Aram221b@gmail.com

PROFESSIONAL SUMMARY

I started in early 2021 with a huge challenge! Having left a previous role of 3+ years in the telesales and telecommunications industry. Have been learning to become a full stack Developer with ZTM, which has now been completed. And on a new journey with IN4 Group. The course started with the fundamental of JavaScript, going on the cover various backend and the frontend technologies such as SQL, Postgres SQL, Express, React, HTML, and CSS to name a few.

Implementing pair programming throughout. Thoroughly enjoyed the course and now am searching for the first developer role!

WORK HISTORY

01/2020 – Current
